

Includes: Mouse Droid (rechargeable batteries), Remote Control, Micro USB Cable, 12 Missiles.

Mouse droids perform simple tasks aboard starships and in military and corporate facilities. They keep to themselves as they perform small repairs, deliver messages and guide visitors. Occasionally they burst into panicked squeals when confused or frightened.

WARNING:
CHOKING HAZARD - Small parts.
Not for children under 3 years.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

MOUSE DROID:

Rechargeable batteries and one Micro USB cable are included.
The Micro USB charging port is located on the bottom of the Mouse Droid. Connect the supplied Micro USB cable into the Mouse Droid, and connect the USB into your computer or electrical outlet.
The Mouse Droid's battery life can run for approximately 5 hours, if the device is fully charged.*
